OBJECTIVE

Passionate machine learning engineer eager to apply my skills in algorithms and data analysis. Looking for an entry-level position to contribute to innovative projects and grow in a collaborative team.

EDUCATION

Master of Computer Applications ,UPES Dehradun

Expected 2026

Relevant coursework: Data Processing, Regression, Loss Functions, Optimization.

Bachelor of Computer Applications, CCS University (Meerut)

2020 - 2023

SKILLS

Technical Skills

Python, Java, Mathematics /Statistics

Soft Skills

Communication, Team Collaboration, Time Management

PROJECTS

Stock Price Prediction: Developed a stock price prediction program utilizing Huber loss to optimize model accuracy, enabling more robust predictions in volatile markets.

File Management System: Created a file management system using Python, enabling efficient organization, retrieval, and manipulation of files, enhancing user productivity and data management.

Handwriting Replication Model: Participated in a hackathon where I developed a machine learning program to replicate a person's handwriting, showcasing my skills in artificial intelligence and creativity in solving complex challenges within a time-constrained environment.

EXTRA-CURRICULAR ACTIVITIES

- Participated in martial arts for several years, demonstrating discipline, perseverance, and physical fitness.
 - Active member of the ACM (Association for Computing Machinery) and CSI (Computer Society of India) societies, engaging in technical discussions and collaborative projects.
-
